

# Eco Friendly Tapes, Labels on a roll & Labelopes

October 2024

Our unique products are made  
from plant derived materials.

# Eco Friendly Tapes, Labels and Labelopes

Pomona eco friendly packaging tapes and labelopes are an environmentally friendly alternative to traditional plastic packaging tapes. Their natural rubber adhesives give them excellent adhesion to a wide range of cardboards.

Our unique products are made from plant derived materials. They are coated with a natural based rubber adhesive system which provides extra initial high tack, and bonding to most cardboard grades. The cellulose film and rubber adhesives are also naturally biodegradable.

Our **water activated kraft paper tapes** are 100% recyclable, tamper evident and have strong adhesives which bond to the fibre of the carton.

Our **natural cellulose packaging tapes and lope on a roll** have high tack natural rubber adhesive combined with 100% plant based cellulose film backing which sticks well to rough or smooth surfaces. They are up to 3 times more environmentally friendly than standard acrylic OPP tapes derived from oil.

## Kakariki Eco-Friendly Ranges

The Pomona Tapes Kakariki range offers a range of environmentally friendly alternative products to traditional plastic packaging tapes, where the rubber adhesive gives them excellent adhesion to a wide range of cardboards.

The eco-friendly Kakariki range includes Clear rPET Packaging Tape, Custom Printed Water Activated Gum Paper Tape that is 100% recyclable, Natural Cellulose Clear Packing Tape, Paper A4 Plain Labelopes, Paper Labels, Paper Machine Carton Sealing Tape, Paper Packaging tape and Paper Invoice Enclosed Labelopes.
